

## **ENFORCEMENT OF FEE COLLECTION**

It is the policy of the Sutton School Committee to equitably enforce collection of fees implemented by this committee. All students who do not comply with payment of stated fees for sports, activities, parking, and/or music lessons and have not requested or received a waiver from the administration are subject to revocation of that activity of privilege.

Parking is assigned by the administration. A student may have his or her privilege to park on school property revoked for disciplinary reasons or non-payment of the parking fee. If the student parks on school property without permission, after being warned by the administration, his/her car will be subject to towing. The student will assume the towing charge.

Similarly, all athletic, activity, and/or music fees are due prior to the first game, lesson, or initial meeting of the activity. The administration will work with coaches, faculty, parents, and students to ensure communication of fees and due dates.

Bus fees must be paid in full by May.

Parents may set up a payment plan with the administration. Parents who set up a payment plan with the administration are expected to pay each payment at the scheduled time. Failure to do so will result in termination of his/her participation in that activity. In any approved payment plan, all fees are to be collected in total before the midway point of any activity, lesson, or sport.
